ICE BREAKER

What are your favorite STEAM programs you've facilitated at your library?

Or

If you're new to STEAM programming, what types of programming interest you?

SSI'S MISSION DISCOVER, EDUCATE, INSPIRE

Enable scientists to advance our understanding of Earth and the Universe

Increase science and tech literacy for all

Inspire youth to pursue STEM education and careers

National Center for Interactive Learning

Science-Technology Activities & Resources For Libraries

RESEARCH PROGRAMS at Space Science Institute

Research, development and consulting services in science, education and management.

S

STAR Library Education Network Who we are and what we do!

WHAT DOES STAR NET DO?

Exhibits

Kits

- Professional Development
- Community Dialogues
 Partnership Guidance
 SME Matchmaking
- Events
 Interactive Activities
 Facilitation Strategies
 Resource Dissemination
 Eclipse Glasses and
 - Training!

SEAL Group on the STAR Net Online Community

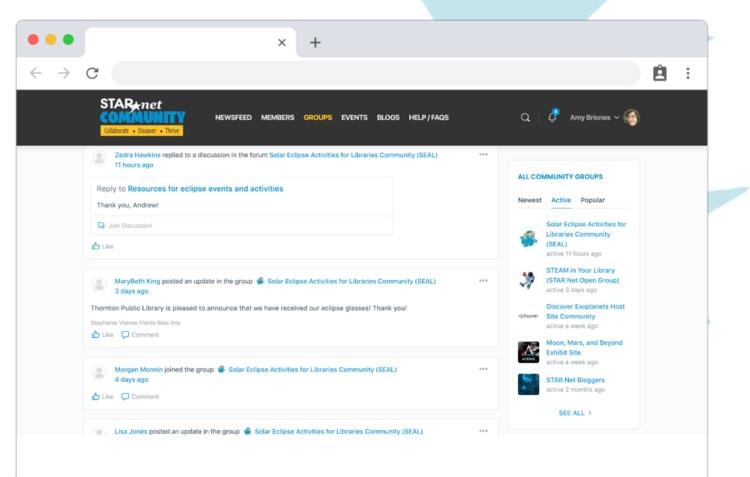

WHAT IS THE COMMUNITY?

- Online network specially curated for you
- Opportunity to interact with fellow libraries
- Place to upload your program pictures, activity documents, and chat

WHAT IS THE COMMUNITY?

Like other social media platforms, you can post discussions, "like" other's comments, upload documents for activities and share pictures

FEATURED COLLECTIONS

In the STEM Activity Clearinghouse, librarians and library staff can find high quality, vetted STEM activities that are appropriate for library use. STEM stands for Science, Technology, Engineering, and Math.

You can search by audience, content level, and difficulty, among others. You can also browse collections that we've curated just for you! Almost all the activities in the Clearinghouse have pictures or videos of real libraries doing these activities. Activities developed outside the STAR Net Project will include tips and tricks for implementing in your library, and will link you back to the original source content so you can explore more.

Can a Toaster Make Wind?

★★★★☆1 Review(s)

per page

In this demo, patrons investigate the source of wind by using a toaster to heat air while they observe its effect on a small aluminum foil kite.

ACTIVITY: PASSION FOR PIXELS

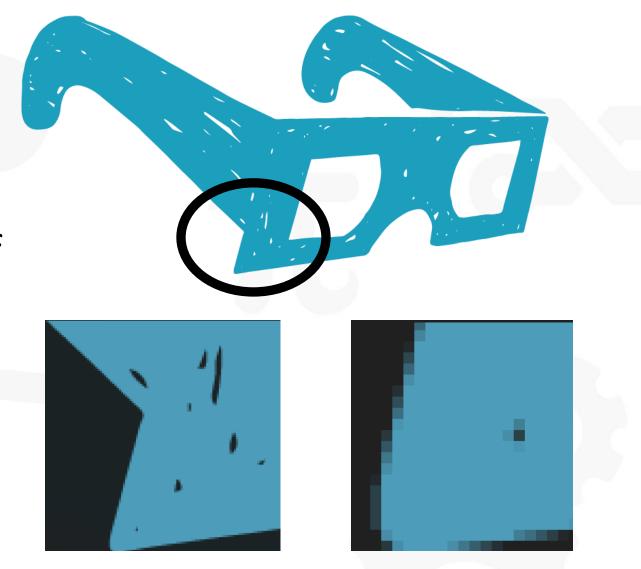

Passion for Pixels

- Explore binary coding by "transmitting" a picture from yourself to a partner
- Materials
 - Two paper grids (paper grids or hand-drawn grids)
 - Writing instrument

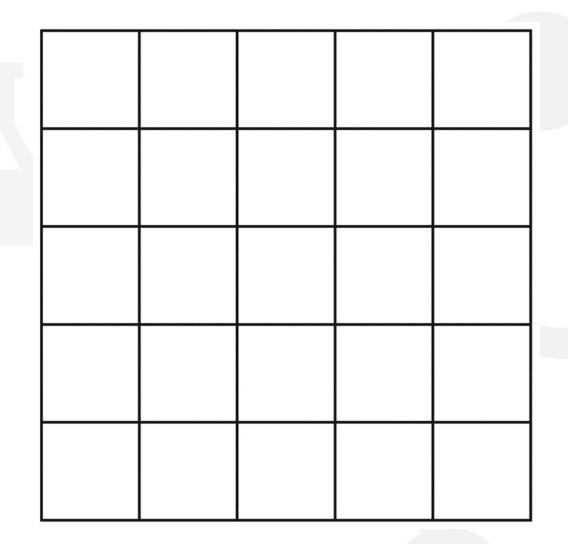

Passion for Pixels

- Digital images are made of **pic**ture **el**ements (pixels)
- The ratio of pixels to area of the image determines the resolution (clarity) of the image
- 300 dpi printed images
- 72 dpi digital images

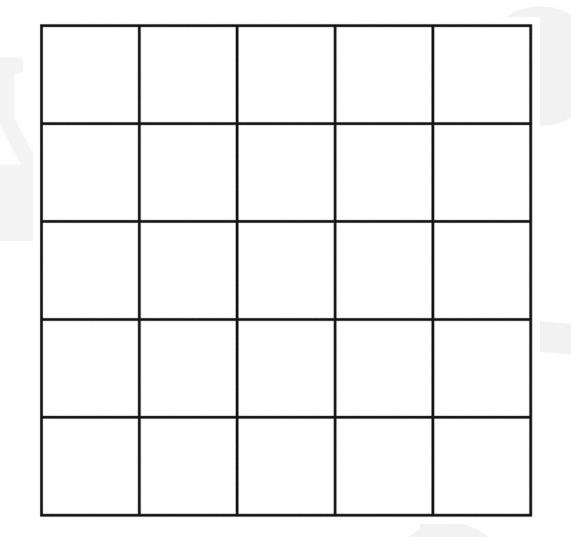

- Pick a "transmitter" and "receiver"
- The transmitter tells the receiver the image in binary code
- "0" for empty square
- "1" for filled square
- This is binary coding!

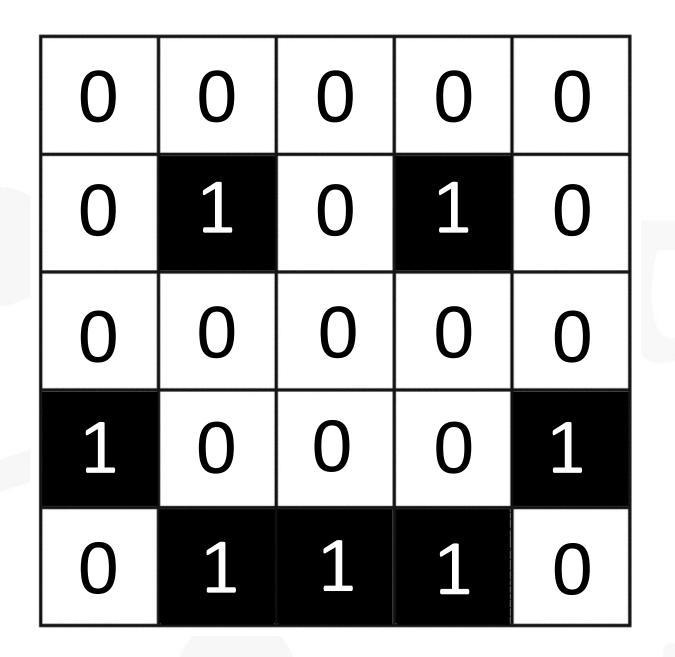

Important tips

- Determine order of transmission
- Left to right? Right to left?
- Does a new line start on the same side you began on or wrap around?

STEAM FACILITATION STRATEGIES

What do you notice about this image?

Guide on the Side

"Guide on the Side" Strategies for Your STEAM Programs

Credit: Space Science Institute

Strategy .

Create a safe learning environment

I don't know...let's find out together!

That is an interesting thought! How did you come up with it?

Strategy 2

Open-ended questions

Credit: Space Science Institute/High Plains Library District

What do you notice? Can you tell me more?

What does this remind you of?

Strategy.3

Let's take another look

What did you observe?

Illustration by Kevan Mills. Credit: Space Science Institute

Strategy 3: Wait Time

Wait approximately 5 seconds after asking a question.

Respond to someone who took longer to form his or her thoughts.

Gives time for learners to think about and articulate their ideas.

Strategy 4 Turn and talk

Please turn and tell your family member or friend your ideas.

"Help each other figure this out. Take your time. I will come back in a few minutes to see how you're doing."

Have you tried any of these facilitation strategies in your organization?

- 1. Create a Safe Learning Environment
- 2. Open-Ended Questions
- 3. 5-Second Wait Time
- 4. Turn and Talk
- 5. Hands-on Activities
